## Exhibitor Booth Photography

The official IASLC WCLC 2022 Photographer is available to provide high quality photographs of your exhibit booths, both with people and without.

Approximately 15 +/- images will be delivered dependent on the booth size, features etc.

Upon submission of this form, the Photographer will contact you to set a time for the photography based on his availability. Usually this is before the delegates arrive on any given day. In some cases, he may be available in the evening after the exhibit hall closes.

Images will be sent electronically via Wetransfer approximately 2 weeks after the conference concludes.
